Summary

I aspire to work as a Web Developer in a reputable organization where I can apply my technical expertise and creativity to build effective solutions. With 1 year of experience in developing user friendly and responsive web applications, I am committed to delivering value to both businesses and their customers. My goal is to further enhance my skills, stay updated with industry trends, and contribute to the organization's growth by working on impactful projects with a collaborative team.

Work Experience

Zoople Technologies

Mar, 2024 - Jun, 2024

Full Stack Developer Intern

Zoople Technologies is a leading educational institution specializing in web development training. I interned there for 3 months, gaining excellent knowledge in Django full-stack development.

- Successfully completed two web development projects using Django fullstack technology.
- Gained a strong foundation in the basics of HTML, CSS, JavaScript, and Python.
- Studied and explored various hosting services to deploy web applications.
- Collaborated effectively with a team to develop and implement project features.
- Presented completed projects, demonstrating functionality and technical expertise.

Digicue Software Solution

Oct, 2024 - Jan, 2025

Full Stack Developer Intern

Digicue is a private startup specializing in web development and digital marketing. The company focuses on delivering innovative digital solutions to enhance online presence and business growth.

- Completed two web development projects, including a full-fledged Commerce website.
- Learned hosting services and successfully hosted projects through GoDaddy.
- Developed and implemented advanced features for eCommerce functionality.
- Collaborated with a team to ensure smooth project execution and delivery.
- Presented completed projects, showcasing their functionality and technical details

Projects

AyurRich

Ayurrich is an eCommerce web application developed using Django, designed to sell ayurvedic products. The front end is crafted with HTML5, CSS3, JavaScript, and Bootstrap to ensure a responsive and user-friendly interface.

- Certified Professional-Web Developer
- Certified Bachelor of Computer Application
- Developed an eCommerce platform with product browsing, a dynamic shopping cart, secure checkout, and 1-hour session management, ensuring a seamless shopping experience for ayurvedic customers.
